

## **30-Day Wellness Protocol**

### **Overview**

This wellness protocol is designed to improve sleep quality, hydration, nutrition awareness, movement consistency, and stress management over 30 days.

Participants should focus on gradual habit formation rather than perfection.

---

### **General Rules**

#### **Do**

- Drink at least 2 liters of water daily.
- Maintain a consistent sleep schedule.
- Track daily progress.
- Walk or perform light activity every day.
- Focus on whole foods whenever possible.

#### **Do Not**

- Skip meals regularly.
  - Consume caffeine after 2:00 PM.
  - Consume sugary drinks more than once per day.
  - Stay awake more than 2 hours past your normal bedtime.
- 

### **Sleep Guidelines**

- Target 7–9 hours of sleep per night.
  - Avoid screens 30 minutes before bedtime.
  - Maintain the same sleep and wake time daily.
  - Avoid heavy meals within 2 hours of sleep.
- 

### **Hydration Guidelines**

- Minimum daily water intake: 2 liters.
  - Increase hydration during exercise.
  - Reduce sugary beverages.
  - Water should be the primary source of hydration.
-

## **Nutrition Guidelines**

- Eat protein with each major meal.
  - Include fruits or vegetables daily.
  - Limit processed snacks.
  - Track late-night snacking habits.
- 

## **Activity Guidelines**

- Walk daily.
  - Aim for at least 20 minutes of movement.
  - Gradually increase activity level.
  - Consistency is more important than intensity.
- 

## **Daily Progression**

### **Day 1**

Introduce the protocol.

Record current weight, sleep duration, and wellness goals.

### **Day 2**

Focus on hydration.

Track total water intake.

### **Day 3**

Focus on sleep quality.

Focus on sleep hygiene.

#### **Day 26**

Evaluate progress toward goals.

#### **Day 27**

Increase movement if appropriate.

#### **Day 28**

Review all habits.

#### **Day 29**

Prepare long-term wellness plan.

#### **Day 30**

Final reflection and summary.

---

### **Frequently Asked Questions**

#### **Can I drink coffee?**

Yes. However, caffeine should not be consumed after 2:00 PM.

#### **Can I drink sugary beverages?**

They should be limited to once per day or less.

#### **How much water should I drink?**

At least 2 liters daily.

#### **What if I miss a day?**

Resume the protocol the next day without trying to compensate.

#### **Is walking required?**

Daily movement is encouraged, and walking is the recommended activity.

#### **What should I do if I struggle with consistency?**

Focus on small improvements and return to the protocol the next day.
